INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Public Agency Compensation Trust

We have audited the accompanying statement of net assets of the Public Agency Compensation Trust as of June 30, 2011 and 2010, and the related statements of revenues, expenses and changes in net assets, and the statements of cash flows for the years then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts disclosed in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of the Public Agency Compensation Trust as of June 30, 2011 and 2010 and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the supplemental section, which includes the 10 Year Claims Development schedule, are not a required part of the basic financial statement, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedure, which consisted principally of inquires of management regarding the methods of measurements and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The supplemental schedule on unpaid loss liabilities for the Worker's compensation and Heart & Lung funds, Comparative Schedule of Claim Development for Workers Comp and Heart & Lung, the statutory Schedule P requirements and investment schedules prepared in NAIC format is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion those schedules.

Management's Discussion and Analysis

Purpose:

To further understanding of significant financial issues, this Public Agency Compensation Trust management's discussion and analysis a) provides an overview of PACT's financial activities, b) identifies significant changes in the PACT's financial position and its ability to address subsequent year financial challenges and c) provides insights into the long-term financial viability of PACT.

Background:

As a result of changes in the Governmental Accounting Standards Board (GASB) requirements set forth in GASB Statement No. 34 – *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Government*, PACT's financial information must be accompanied by enhanced analysis, both short and long term, and explanations of significant financial statement elements. Since Public Agency Compensation Trust operates as an enterprise created pursuant to NRS 277, the Interlocal Cooperation Act, its financial statements will be presented in a manner that reflects its operations much like a private company.

Using this Annual Report:

Since the financial statements report information about PACT using accounting methods similar to those used by private sector organizations, these statements offer short and long term financial information about PACT's activity. The financial statements show a comparison of two audited years ending June 30, 2011 and June 30, 2010 to facilitate understanding of changes in the financial position over time.

The Statement of Net Assets includes all of PACT's assets and liabilities and information about the nature and amounts of investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluation of the capital structure and for assessing the liquidity and financial flexibility of PACT.

Current year revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Assets. This statement measures the success of PACT's operations for the fiscal year compared to the previous year and can be used as a measure of PACT's credit worthiness and whether PACT successfully recovers its costs through its sources of revenue.

The Statement of Cash Flows serves to provide information about PACT's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments and net changes in cash resulting from operations and investments. It also discloses from where cash comes, for what it was used and the change in cash balance during the reporting period. Since PACT incurs financial obligations to pay for claims that occurred in the past from current year resources and at the same time receives revenue that it must retain for payment of future claims from future resources, cash flow may vary significantly from year to year.

Financial Highlights:

Statutory requirements and board policy require PACT to be audited each year by an independent auditor. Since its inception on April 1, 1996 and continuing through this fiscal year, the independent auditor's report offers an unqualified opinion on the financial statements. Such an opinion reflects the highest opinion that can be obtained from an independent auditor.

<u>Changes in net assets:</u>
Fiscal year ended June 30, 2011: $48,159,833
Fiscal year ended June 30, 2010: $47,888,678
Net increase: $251,155 or 0.6%.

PACT's primary revenue source comes from Member contributions to the PACT's Loss Fund, administrative budget and reinsurance and excess insurance costs. Interest income on investments constitutes the secondary revenue source.

Total assessments revenues:
Fiscal year ended June 30, 2011: $12,778,111
Fiscal year ended June 30, 2010: $14,043,571
Net decrease: $1,265,460 or 9.9%.

The decrease resulted from reduced payrolls due to the economy and the withdrawal of one large member.

Total expenses:
Fiscal year ended June 30, 2011: $13,916,733
Fiscal year ended June 30, 2010: $14,639,429
Net decrease: $(722,696) or 4.9%.

The most significant factors in this change are attributable to increased amortization expense and the reduction in claims reserves. The amortization expense is attributable to PACT's further contribution of surplus to Public Compensation Mutual (PCM), its captive insurance company. The development schedule included in the financial statement provides the history of the claims reserve changes each year over 10 years.

Operating net assets:
Fiscal year ended June 30, 2011: $(1,138,622)
Fiscal year ended June 30, 2010: $(595,858)
Net decrease: $(543,037)

Increases in amortization expenses contributed $704,477 or 62% of the decrease in operating net assets. Increased amortization expense reflects the board's decision to increase contributions to surplus to PCM consistent with its long-term strategy. The 2011 Insurance Division Fees contributed $283,825 of the increased expenses due to higher regulatory budgets and a substantial increase in the subsequent injury fund assessment.

Net investment income:
Fiscal year ended June 30, 2011: $1,409,777
Fiscal year ended June 30, 2010: $2,812,928
Net decrease: $(1,403,151)

Investments are marked to market value at the time of the financial statements, which may result in a negative or positive overall result. Maintaining positive returns under the difficult economic conditions during this fiscal year speaks to the conservative investment strategies employed by PACT. The investment portfolio consists of governmental type investments which, if held to maturity, will yield the respective coupon rates although interim performance may lag. Most of PACT's investments are anticipated to be held to maturity.

Financial Analysis:

In order to enhance analysis, comparative information is provided for assets, liabilities, net equity, revenues and expenses as shown in the chart at the end of this narrative. The benchmarks shown in the chart resulted from a pooling and captives' industry study conducted a few years ago by Tillinghast and provides a useful tool to facilitate management's analysis and understanding of the financial results. Other performance indicators may be used by insurance companies but are not necessarily useful comparative indicators for risk pools.

Assets:

In fiscal year ended June 30, 2011, net assets grew by 0.6% or $271,155. This result substantially is less than the gains of the previous fiscal year largely due to the increased amortization of PCM and the regulatory fee increase. On the positive side, claim reserves decrease substantially. An explanation about how these results were achieved was provided in the financial highlights. Continuing to grow the asset base is critical to the long term viability and stability of PACT due to the volatility of workers compensation claims and the level of retention taken by PACT. A strong base enables PACT to withstand a substantial reversal in incurred claims costs due to catastrophes or substantially increased high cost claims frequency. PACT's Board policies require a strong, sustainable and durable financial condition to avoid adversity. Workers compensation is a volatile business, thus attention to long term strategies to maintain net assets is critical to success.

Revenues, Expenses and Changes in Assets:

Gross revenues (assessments plus net investment income) declined by 4.9% for fiscal year ended June 30, 2011 as a result of declining payrolls, loss of a large member and reduced investment income.

Actuarial

The actuarial analysis for the current fiscal year revealed a decrease in case reserves and IBNR reserves over prior years' estimated incurred losses. Refer to Note 13 for the details of Unpaid Loss Liabilities.

Other factors also apply: 1) ASC's (PACT's claims administrator) experienced adjusters have been able to manage claims efficiently and effectively and have maintained quality as evidenced by external claims audits, 2) SpecialtyHealth, the managed care organization and bill reviewer for PACT has greatly helped the adjusters manage claims effectively, 3) loss control efforts have proven effective, and 4) the continuing roll-out of the Cardiac Wellness Program that should help reduce potential heart claims, although implementation impediments have slowed down the program. It is important to continue to strengthen these approaches to assure continued success for PACT.

Workers compensation self-funded programs experience significant volatility particularly when the retention levels per loss are high. Because PACT retains a substantial portion of the risk in all classifications, it is important to the long term viability of PACT and to assure its ability to meet its obligations to injured workers that PACT grow its net assets. We continue to face pressure to increase our retentions in light of medical and wage inflation trends as well as market pressures, which suggests that volatility will further increase and will need to be cushioned strongly. By growing net assets strongly, PACT is better positioned to respond to these demands while maintaining financial stability. PACT management, consistent with board policy, selected a 75% actuarial confidence level as a prudent level to develop a strong financial position in keeping with the PACT Board's goals of creating and sustaining a durable financial position.

Capital Assets and Debt Administration:

PACT has no physical assets and no debt. It did have a letter of credit with Wells Fargo Bank in favor of the Insurance Commissioner to secure its solvency as required by regulation, but replaced the LOC in May 2010 with pledged investments to satisfy that security requirement at lower cost.

Economic Factors:

For fiscal year ending June 30, 2011, economic conditions remained uncertain with some elements of weak economic growth beginning to appear for the nation and Nevada. Medical inflation moderated nationally but still exceeds the general inflation rate and this affects the underlying costs of claims payable by PACT. While Nevada retains a fee schedule to limit cost increases, recent reviews of the fee schedule components resulted in increases in the last few years. Wage inflation generally is low in the public sector, which keeps disability costs down. A legislative change in 2003 resulted in adoption of the 5th Edition of the AMA guide to rating impairments, which increased costs overall. The 2009 Legislature fixed the 5th Edition into statute rather than having the most current edition be implemented by regulation.

The 6th edition would have reduced costs in several key ratings of impairments due to recognition of improved medical outcomes.

The Nevada Supreme Court reached a decision in 1998 interpreting the special provisions for heart and lung coverage for qualifying police officers and firefighters that concluded that once these persons meet the five years of continuous service eligibility for benefits, those benefits are available for life regardless of any connection to actual work at the time the claims is made. Staff immediately implemented a judgment loading in the rates for this new interpretation of the statute, pending legislative action. PACT unsuccessfully attempted to have the Legislature modify this court interpretation to require that the claim must manifest within a reasonable time frame from leaving the workplace. As a result of that failed effort, PACT undertook an actuarial study to estimate the lifetime cost of risk associated with this decision. That study was concluded and the results indicated that the present value of the future benefits for former employees was estimated to range from $5,668,000 to $22,258,000, depending upon the interpretation as to which legal theory may be applicable.

These figures were presented to a task force who recommended to the board that they eliminate the judgment loading and implement a funding plan based on the actuarial study effective with the subsequent fiscal year. The board adopted the funding plan for implementation effective July 1, 2002. By taking this action, the board began its mitigation plan for the long-term adverse financial impact of the risk of former police officers and firefighters filing workers compensation claims long after employment. Subsequently, the board authorized acceleration of the funding rate. The rate set in 2002 was increased by 10% as a result of an actuarial rate study that confirmed the range of potential losses from prior studies and demonstrated the need to accelerate needed assessments in future fiscal years as demographic factors begin to influence the post-employment risks.

The heart/lung assessments collected for fiscal year ended June 30, 2011 were $1,503,026 compared to June 30, 2010 at $1,532,836 even though PACT had one large member withdraw on July 1, 2010.

PACT sought relief before the United States Supreme Court to address the question of the constitutionality of the post employment conclusive presumption of eligibility for workers compensation for police officers and firefighters, but was denied review.

We continue to experience adverse rulings at hearing and appeal levels regarding heart-lung cases. Political actions to increase benefits continues each legislative session, particularly by law enforcement and firefighter lobbyists, and that could cause potential pressure by excess insurers to increase PACT's retention or cause increased costs or both, which would require rate increases or weaken the financial position. Demographically, there is an emerging and accelerating likelihood of additional heart-lung claims from both current and post-employment eligible law enforcement officers and firefighters. PACT supported a bill brought forth by Sen. Rhoades on behalf of the Nevada Taxpayers Association that would have capped post-employment eligibility, but the bill died in the Assembly.

Subsequent Events:

There were no subsequent events that would affect the financial statements for the current fiscal year.

Requests for Information:

While the purpose of this discussion and financial report is to provide a general overview of PACT's financial position, requests for additional financial information should be addressed to Wayne Carlson, Executive Director, 201 S. Roop St., Suite 102, Carson City, NV 89701-4790.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of program

Public Agency Compensation Trust (PACT) was formed by local governments for the purpose of organizing a self-insured workers' compensation group. The Trust began operations April 1, 1996. The trust's objective is to provide members with a lower cost alternative achieved through enhanced claims management, program administration, and member services that will reduce the cost of claims.

PACT provides workers' compensation coverage to member governmental entities and hospitals pursuant to state statutes. The program is fully funded by member entities and is governed by a Board of Trustees comprised of representatives of each member. Any member may withdraw from the program by giving 120 days notice. PACT's independent actuary, who is an approved Rate Service Organization, develops PACT rates.

Principles of presentation

PACT has prepared its financial statements in accordance with accounting principles generally accepted in the United States of America. PACT prepares its financial statements on the accrual method of accounting recognizing income when earned and expenses when incurred. PACT has implemented Governmental Accounting Standards Board (GASB) Statements No. 34 and No. 37, *Basic Financial Statements - and Management's Discussion and Analysis – for State and Local Governments and GASB Statement 38, Certain Financial Statement Note Disclosures.*

The financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America for governmental entities and insurance enterprises, where applicable, which may differ from the basis of accounting followed in statutory reporting.

Accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Cash and cash equivalents

The Operating Fund has a checking account, money market investment account, and an investment account for long-term investments. For the purposes of the Statement of Cash Flows, the PACT considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

The Claims Fund has two checking accounts, one for payment of claims and the other for claims related expenses as required by Nevada Revised Statute 616B.368.

Investments and investment income

Investments consist predominately of government and government backed securities and are reported at their fair value in the statement of position. Fair value is determined utilizing the market value of the investments as reflected on the applicable brokerage statements. Net increases and decreases in the fair value are included in the statement of activities and changes in fund balances.

PACT is authorized to make investments in bonds and debentures of the United States, bills and notes of the U.S. Treasury, and in high-grade equity securities. PACT also is authorized to purchase negotiable certificates of deposit issued by commercial banks or insured savings and loan associations. PACT's investments have been restricted by policy of the Board to those allowable for local governments.

Credit Risk:

Credit risk is the risk that the issuer of a security will default on principal and interest of the security. PACT's policy is to invest in corporate debt issues with a minimum of an "AA" rating from Moody's or Standard and Poor's rating services or U.S. Government and government backed securities. In addition, PACT's policy is to diversify the investment portfolio so that the impact of potential losses from any one type of security or from any one issuer will be minimized.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Credit Risk: PACT limits investments in fixed income securities to 10% of the total fixed income portfolio to any one issuer. No more than 15% of the total investment pool will be invested in any one class of security, industry or company. PACT will not directly invest in securities maturing more than ten (10) years from the date of purchase, except as permitted by law. The policy does not place a limit on the purchase of U.S. Government and government backed securities.

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. PACT will, to the extent possible, minimize this risk by matching investment maturities to liability due dates. This allows PACT to hold investments to maturity thus mitigating losses from the sale of investments prior to their maturity date. Additionally, exposure to fair value losses arising from decreasing interest rates is minimized by investing predominantly in investments with short to mid-term maturities that perform in line with the return of a managed fund comprised of 1 – 3 year Treasury Bonds.

Member Assessments

Member assessments and reports are due 20 days after the end of the quarter. Assessment rates are based on independent actuarial estimates that are reviewed and approved by the Insurance Commissioner.

Losses and loss adjustment expense

Reserves for losses and allocated loss adjustment expenses are provided based on case-based estimates for losses reported and PACT's historical loss experience for claims incurred but not reported (IBNR). The liability for unpaid losses and loss adjustment expenses includes the estimated cost of investigating and settling all claims incurred as of the balance sheet date. Such amounts are determined based on an evaluation prepared by management and an independent consulting actuary. Although such estimates are best estimates of the expected values, the actual results may vary from these values.

The liability represents the estimated ultimate cost of settling claims, including the effects of inflation and other societal and economic factors. The liability also includes unallocated costs which are estimated by management. Any adjustments resulting from the settlement of losses will be reflected in earnings at the time the adjustments are determined. The loss reserve estimates are discounted at 3% in 2011 and 2010, the expected investment rate, to show the present value of those reserves.

Income Taxes

In accordance with Internal Revenue Service code Section 115, organizations formed, operated and funded by political subdivisions may exclude income from those activities that qualify for exclusion. Accordingly, no provision for income taxes has been provided in the accompanying financial statements.

Insurance Division Annual Fees

The Insurance Division annually assesses fees to the Trust based on prior year's claims expenditures. It is the policy of management to record the invoice received each year as the expense for that year as these invoices cannot be reasonably estimated and therefore accrued.

Supplementary development schedule - Unaudited

The statements and development schedule reports claims paid on a reported year basis. Loss reserves shown on the financial statements are discounted; however, the development schedule reflects undiscounted loss reserves.

NOTE 2 – CASH & EQUIVALENTS

The carrying amount of PACT's deposits with financial institutions at June 30, 2011 and 2010 are $3,207,549 and $4,445,265 respectively. The financial institution balances were $3,384,389 and $4,565,568 respectively. The difference between the carrying amounts and financial institution balances results from outstanding checks and deposits not yet reflected in the bank's records.

	2011	2010
Amounts insured by FDIC	$250,000	$250,000
Amounts collateralized	1,176,896	2,597,197
Cash equivalents at brokerage firm	1,957,493	1,718,371
Total deposits at financial institutions	$3,384,389	$4,565,568

PACT maintains its cash, cash equivalents and investments in a commercial bank and a brokerage institution. All amounts in the commercial bank are insured by the FDIC or collateralized. Amounts at the brokerage firm up to the SPIC insurance limit are insured through SPIC and additional amounts are insured by the broker through an insurance policy.

NOTE 3 – INVESTMENT SECURITIES

A summary of investments as of June 30, 2011 is as follows:

		Investment Maturities in Years			
	Fair value	1 year or Less	1 – 5	5-10	Over 10
U.S. Treasuries	$15,966,377	$1,295,832	$1,791,020	$12,879,525	-
U.S Government & agencies	8,979,299	762,799	5,644,666	2,284,891	$286,943
U.S. Mortgaged backed securities	2,746,405	10,159	443,661	61,038	2,231,547
U.S Government backed securities	21,808,413	8,432,747	9,732,939	3,056,486	586,241
Total cash and investments	$49,500,494	$10,501,537	$17,612,286	$18,281,940	$3,104,731

A summary of investments as of June 30, 2010 is as follows:

		Investment Maturities in Years			
	Fair value	1 year or Less	1 – 5	5-10	Over 10
U.S. Treasuries	$9,478,972	-	-	$9,478,972	-
U.S Government & agency	25,945,945	-	19,901,191	6,044,754	-
U.S. Mortgaged backed securities	3,815,493	-	758,181	699,064	$2,358,248
U.S Government backed securities	7,291,140	-	7,291,140	-	-
Certificates of deposit	100,000	100,000	-	-	-
Total cash and investments	$46,631,550	$100,000	$27,950,512	$16,222,790	$2,358,248

Actual maturities may differ from contractual maturities as some borrows have the right to call or prepay with or without call or prepayment penalties. Investments are reported at fair value by the investment broker as determined by an outside pricing firm. All securities are U.S Government or government backed.

NOTE 4 – MEMBER ASSESSMENTS RECEIVABLE

Member assessments receivable were $3,369,665 and $3,552,337 for the years ended June 30, 2011 and 2010. Amounts receivable at both years' end are primarily assessments for the last quarter of the fiscal year and are determined based on the annual payroll audits.

NOTE 5 – LIABILITY OF MEMBERSHIP

Members of PACT are jointly and severally liable to pay benefits to injured workers as required by law. Workers compensation pools can be subject to assessments by the Insurance Commissioner should other self-insured workers compensation pools encounter financial difficulties.

NOTE 6 – REINSURANCE & EXCESS INSURANCE

In the ordinary course of business, PACT maintains an excess insurance contract with an insurance carrier through their broker company, Willis Pooling. This excess insurance provides both a specific and an aggregate limit of liability to protect PACT against potentially large losses or an accumulation of losses. This provides coverage in excess of PACT's self-insured retention. The limits provided by this excess insurance contract, including PACT's self-insurance retention, are as follows:

1) The specific limit of liability per accident is statutory excess of a self-insured retention per accident of $2,500,000.

2) A limit of liability of $3,000,000 excess of an aggregate retention of 2.7412% of payroll, subject to a minimum aggregate retention of $8,032,576 and $8,397,190 for years ended June 30, 2011 and 2010.

PACT reinsures a portion of PACT's limit of indemnity of $2,500,000 through Public Compensation Mutual, which bears 25% of $2,000,000 excess of PACT's $500,000 retention, and through County Reinsurance, LTD., which bears 75% of $2,000,000 excess of PACT's $500,000 retention. Both reinsurances are captive insurance companies in which PACT has a financial interest.

NOTE 7 - RELATED PARTY TRANSACTIONS

Public Agency Risk Management Services, Inc. (PARMS) is presently contracted to provide management services. PARMS serves both PACT and the Nevada Public Agency Insurance Pool (POOL) as the Executive Director/Administrator. PARMS is a service corporation wholly owned by Mr. Wayne Carlson. Management fee paid under the contract for years ended June 30, 2011 and 2010 was $471,955 and $461,666 respectively.

A new agreement was entered into with PARMS commencing July 1, 2011 and terminating on July 1, 2014 with an option to extend with the same terms and conditions for an additional two years. A 3% annual increase for management fees is included in the contract.

Many of the board members of the Nevada Public Agency Insurance Pool (POOL) are also members of PACT as they share a common membership. The board of Public Compensation Mutual comprises of several PACT board members. Nevada Association of Counties (NACO) is a member of PACT and was a tenant until January 1, 2011.

Effective July 1, 2006, NPAIP jointly with PACT provided a grant with Pooling Resources, Inc. (PRI), a nonprofit organization formed by the executive director of NPAIP, Wayne Carlson, and whose directors are Wayne Carlson, Alan Kalt and Michael Rebaleati. PRI provides human resources management services to PACT members. PRI pays PARMS a management fee to provide operational and financial oversight of PRI.

.

NOTE 8 – PLEDGED INVESTMENTS & UNUSED LETTER OF CREDIT

According to NRS 616B.353.1(d) and (e) and related regulations, an association of self-insured employers must deposit with the Commissioner a bond or other authorized security, payable to reasonably secure payment of the workers compensation benefits to employees

PACT has obtained a letter of credit from Wells Fargo Bank with the named beneficiary being the State of Nevada Division of Insurance. In April of 2010, PACT decided to not renew the letter of credit and instead pledged certain investments to secure payment. The amounts pledged at June 30, 2011 were $4,183,609 and $4,132,452. In the event that PACT becomes delinquent in its payment of workers compensation benefits, the proceeds will be used to satisfy losses, costs or expenses incurred by the Insurance Division.

NOTE 9 – HEART AND LUNG LOSS FUND

The Heart and Lung Loss Fund reflects special reserves set aside for the purpose of covering post-employment heart or lung disease claims that may be the responsibility of PACT members pursuant to the Last Injurious Exposure Rule interpretation of the law and court cases that determined that coverage for such claims applies to former employees who meet the statutory eligibility requirements for the heart and lung disease benefit

Post-employment claims historically have not been reflected in rate classifications for the appropriate police officer and firefighter classifications. The actuarial projections of loss and loss adjustment expense are intended to be fully funded, thus assessments for this fund are offset 100% by claims reserves. Management followed this conservative approach because of the uncertainty and volatility inherent in this specific risk. The reserve for 2011 and 2010 is $9,852,125 and $8,349,125 respectively.

NOTE 10 – ALLOCATION OF ASSESSMENTS REVENUES

The Nevada Revised Statute 616B.368 requires that 75% of assessment revenues collected be placed in a separate account and that disbursements from this account be limited to paying claims, claims related expenses, excess insurance costs, assessments, payments and penalties related to the subsequent injury fund and the uninsured employer's claim fund. Initially, all funds collected for member assessments and prepayments of assessments and deposits are deposited into the operating account. Periodically, 75% of the assessments are transferred to a separate bank or investment account to comply with this statute.

NOTE 11 – POOLING RESOURCES INC.

Pooling Resources Inc. is required to provide status reports and quarterly financial statements to the POOL and PACT Executive Committees according to the grant document. A renewal of this contract was made for three years beginning July 1, 2009. PACT’s share of the cost is for the first year is $550,000, $566,500 for the second year and $583,500 for the third year.

NOTE 12 –SUBSEQUENT EVENTS

Management has evaluated the activities and transactions subsequent to June 30, 2011 to determine the need for any adjustments to, and disclosure within the financial statements for the year ended June 30, 2011. Management has evaluated subsequent events through October 19, 2011 which is the date the financial statements were available for issue.

NOTE 13 – UNPAID LOSS LIABILITIES

PACT establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related loss adjustment expenses. The following represents changes in those aggregate liabilities during the years ended June 30, 2011 and 2010:

	2011	2010
Unpaid losses and loss adjustment expenses at beginning of year or period	$ 25,572,125	$ 21,936,221
Incurred losses and loss adjustment expenses:		
Provision for insured events of current year	7,643,209	8,009,318
Increase in provision for insured events of prior fiscal years	172,000	1,238,000
Total incurred losses and loss adjustment	7,815,209	9,247,318
Payments:		
Claims and claim adjustment expenses attributable to insured events of current fiscal year/period	(1,627,000)	(1,576,000)
Claims and claims adjustment expenses attributable to insured events of prior period	(3,545,209)	(4,035,414)
Total Payments	(5,172,209)	(5,611,414)
Unpaid claims and claims adjustment expenses At end of fiscal year	**$28,215,125**	**$ 25,572,125**

The current portion of the long term loss reserve for 2011 and 2010 is $5,798,385 and $5,016,821 with the long term portion for 2011 and 2010 being $12,564,615 and $20,555,304.

Incurred losses and loss adjustment expenses are comprised of two significant factors. Provisions for events of the current year increased from $7,612,000 for 2010 to $8,009,318 for 2011. The increase and decrease in the provision for insured events of prior fiscal years for 2011 and 2010 reflects changes in case reserves and actuarial reserve calculations for all prior years cumulatively.

Individual case reserves may increase or decrease as the case develops over time for various reasons. This may affect actuarial projections for past and future years since the various actuarial methodologies are based both on individual case reserve changes and long term trends in reserves. The effect of both the individual case reserve changes over time and the actuarial projections combined may result in a significant increase or decrease that is reflected in the current year's audited net assets. In other words, a decrease in reserves results in an increase in net assets, while an increase in reserves reduces net assets.

NOTE 14 – SURPLUS CONTRIBUTION TO PUBLIC COMPENSATION MUTUAL COMPANY

In May of 2007, PACT's board of directors authorized the start up of a member-owned nonprofit captive mutual insurance company and contributed surplus to the company in the amount of $5,000,000 and subsequent additional surplus contributions have been added. Capitalization at June 30, 2011 and 2011 was $25,617,375 and $18,100,000 respectively. Accumulated amortization at June 30, 2011 and 2011 was $5,240,449 and $3,121,525. The company, named Public Compensation Mutual, ("PCM") is domiciled in Nevada and as of July 1, 2007, became one of the workers compensation reinsurers for PACT. Some of the Public Compensation Mutual's board members also serve as board members of PACT.

Public Compensation Mutual was formed by members of PACT to reduce the costs of insurance, to obtain direct access to reinsurance, to provide broader coverage for policyholders, to broaden investment opportunities and to build equity to enable providing coverage not obtainable elsewhere.

As a condition of contributed surplus, but without any expectation that the funds will be returned, PACT required that prior to any distributions such as dividends, the contributed surplus must be repaid to PACT.

Management considers the contributed surplus costs a development cost that can provide lower operating costs in the future and estimates that the savings in reinsurance costs to PACT will recoup the start up capital. Therefore, the PACT's contributed surplus to PCM will be amortized over 10 years.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PREPARED IN ACCORDANCE WTH NEVADA ADMINISTRATIVE CODE 694C.210

To the Board of Directors
Public Agency Compensation Trust

In planning and performing our audit of the GAAP basis financial statements of Public Agency Compensation Trust (PACT) as of and for the year ended June 30, 2011 in accordance with auditing standards generally accepted in the United States of America we considered its internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of PACT's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency or combination of control deficiencies that adversely effects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be detected or prevented by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Additionally, this report is being prepared consistent with the guidance in the NAIC/AICPA Working Group letter to regulators on the interpretation of Section 11 of the NAIC Model Audit Rule dated March 9, 2005. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above as of June 30, 2011.

This communication is intended solely for the information and use of the Board of Directors, management, others within the organization and state insurance departments to whose jurisdiction PACT is subject and is not intended to be and should not be used by anyone other than these specified parties.

October 19, 2011
Carson City, Nevada

PUBLIC AGENCY COMPENSATION TRUST
Supplemental Schedule on Unpaid Loss Liabilities for Workers Compensation and Heart and Lung

PACT establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related loss adjustment expenses. The following represents changes in those aggregate liabilities for the workers compensation and heart and lung converges during the years ended June 30, 2011 and 2010:

	2011			2010		
	Workers Comp	Heart & Lung	Total	Workers Comp	Heart & Lung	Total
Unpaid losses and loss adjustment expenses at beginning of year or period	$17,223,000	$8,349,125	$25,572,125	$15,120,000	$6,816,221	$21,936,221
Incurred losses and loss adjustment expenses:						
Provision for insured events of current year	6,140,209	1,503,000	7,643,209	6,476,414	1,532,904	8,009,318
Increase (decrease) in provision for insured events of prior fiscal years	172,000	-	172,000	1,238,000	-	1,238,000
Total incurred losses and loss adjustment	6,312,209	1,503,000	7,815,209	7,714,414	1,532,904	9,247,318
Payments:						
Claims and claim adjustment expenses attributable to insured events of current fiscal year/period	(1,627,000)	-	(1,627,000)	(1,576,000)	-	(1,576,000)
Claims and claims adjustment expenses attributable to insured events of prior period	(3,545,209)	-	(3,545,209)	(4,035,414)	-	(4,035,414)
Total Payments	(5,172,209)	-	(5,172,209)	(5,611,414)	-	(5,611,414)
Unpaid claims and claims adjustment expenses at end of fiscal year	**$18,363,000**	**$9,852,125**	**$28,215,125**	**$17,223,000**	**$8,349,125**	**$25,572,125**
