INDEPENDENT AUDITOR'S REPORT

To the Executive Director and the Board of Directors Nevada Public Agency Insurance Pool

Report on the Financial Statements

We have audited the accompanying statement of net assets of the Nevada Public Agency Insurance Pool as of June 30, 2014 and 2013 and the related statements of revenues and expenses and changes in net position and statement of changes in cash flows for the years then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Nevada Public Agency Insurance Pool as of June 30, 2014 and 2013 and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis beginning on page 5 and 10 year claims development schedule on page 20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

Purpose:

To further understanding of significant financial issues, this Nevada Public Agency Insurance Pool (NPAIP) management discussion and analysis:

- a) Provides an overview of the NPAIP's financial activities,
- b) Identifies significant changes in the NPAIP's financial position and its ability to address subsequent year financial challenges,
- c) Provides insights into the long-term financial viability of NPAIP.

Background:

NPAIP implemented the Governmental Accounting Standards Board (GASB) requirements set forth in GASB Statement No. 34 – Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Government. NPAIP's financial information must be accompanied by enhanced analysis, both short and long term, and explanations of significant financial statement elements. Since the Nevada Public Agency Insurance Pool operates as an enterprise created pursuant to NRS 277, the Interlocal Cooperation Act, its financial statements will be presented in a manner that reflects its operations much like a private company.

Using this Annual Report:

Since the financial statements report information about the NPAIP using accounting methods similar to those used by private sector organizations, these statements offer short and long term financial information about the NPAIP's activity. The financial statements show a comparison of two audited years ending June 30, 2014 and June 30, 2013 to facilitate understanding of changes in the financial position over time.

The Statement of Net Position includes all of the NPAIP's assets and liabilities and information about the nature and amounts of investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluation of the capital structure and for assessing the liquidity and financial flexibility of NPAIP.

Current year revenues and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the NPAIP's operations for the fiscal year compared to the previous year and can be used as a measure of the NPAIP's credit worthiness and whether NPAIP successfully recovers its costs through its sources of revenue.

The Statement of Cash Flows serves to provide information about the NPAIP's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments and net changes in cash resulting from operations and investments. It also discloses from where cash comes, for what it was used and the change in cash balance during the reporting period. Since NPAIP incurs financial obligations to pay for claims that occurred in the past from current year resources and at the same time receives revenue that it must retain for payment of future claims from future resources, cash flow may vary significantly from year to year.

Financial Highlights:

By board policy, NPAIP is audited each year by an independent auditor. Since its inception on May 1, 1987 and continuing through this fiscal year, the independent auditor's report offers an unqualified opinion on the financial statements. Such an opinion reflects the highest opinion that can be obtained from an independent auditor.

Changes in Net Position:

Fiscal year ended June 30, 2014: \$32,937,916 Fiscal year ended June 30, 2013: \$31,185,669

Net change: \$1,752,247 or 5.6%.

Net Position changes reflect both operating and non-operating net investment income. Increases in Net Position are retained to assure financial stability and strength of NPAIP based upon the board's long term strategy.

Both property and casualty coverages can experience significant volatility particularly when the retention levels per loss are high. Because NPAIP retains a substantial portion of the property and casualty risk, it is important to the long term viability of NPAIP to be able to meet its financial obligations to its Members by growing its Net Position. Insurance market conditions periodically make it important to be able to increase our retentions, which results in increased volatility that must be cushioned strongly. NPAIP board policy requires a 70% actuarial confidence level as a prudent level to develop a strong financial position in keeping with the NPAIP Board's goals of creating and sustaining a durable financial position.

During previous fiscal years 2001 and 2002, the board purchased land and built its office building located at 201 S. Roop Street, Carson City, Nevada. As a result, \$1,734,284 of the total assets for fiscal year end June 30, 2014 consists of capital assets (after depreciation).

Total revenues:

Fiscal year ended June 30, 2014: \$14,610,828 Fiscal year ended June 30, 2013: \$14,832,482

Net change: (\$221,654)

NPAIP's primary revenue source comes from Member contributions to the NPAIP's Loss Fund, administrative budget and reinsurance costs. A slight reduction in revenues occurred as a result of lower exposure and rates. Rental income constitutes the secondary revenue source and it was up due to rental rate increases.

Total expenses:

Fiscal year ended June 30, 2014: \$13,344,678 Fiscal year ended June 30, 2013: \$13,292,093

Net change: \$52,585 or 0.04%.

The most significant factors in this change were attributable to decreased losses and increased reinsurance costs. The development schedule included in the financial statement provides the history of the claims reserve changes each year over 10 years.

Included in the total assets is NPAIP's capitalization to start its own non-profit captive mutual insurance company, Public Risk Mutual. Initially, in 2004, NPAIP invested \$1,000,000, an amount to be amortized over 10 years. At June 30, 2014, NPAIP had increased its contribution to surplus in Public Risk Mutual to \$17,988,540. Amortization expense as of June 30, 2014 rose to \$1,786,354 based upon NPAIP's policy to continue to amortize each of these contributions over a ten year period. Public Risk Mutual provided reinsurance to the NPAIP for certain property and liability coverage during this year.

Operating Net Position:

Fiscal year ended June 30, 2014: \$1,266,150 Fiscal year ended June 30, 2013: \$1,540,389

Net change: (\$274,239) or (17.8%)

Program expenses declined by \$166,861 or -1.7%, which was offset by an increase of \$219,446 (6.1%) in administration expenses largely due to increased amortization expense that reflects the board's decision to increase contributions to surplus to PRM consistent with its long-term strategy.

Net investment income:

Fiscal year ended June 30, 2014: \$486,097 Fiscal year ended June 30, 2013: (\$124,125)

Net change: \$610,222

The net increase of \$610,222 reflects improved current investment market conditions. Investments are marked to market value at the time of the financial statements, which may result in a negative or positive overall result. Maintaining positive returns under the difficult economic conditions during this fiscal year speaks to the conservative investment strategies employed by NPAIP. The investment portfolio of \$29,313,204 is comprised of governmental type investments which, if held to maturity, will yield the respective coupon rates although interim performance may lag. Most of NPAIP's investments are anticipated to be held to maturity. NPAIP is restricted by Nevada statutes to invest in governmental securities in the same manner as other political subdivisions. Management adjusts the mix of investments as market conditions change.

Capital Assets and Debt Administration:

With NPAIP's purchase of land and completion of construction of its headquarters building, the NPAIP's capital assets comprise 3.96% of its total assets. The building generates rental income and also diversifies NPAIP's investments. NPAIP remains debt free.

Comparative Key Performance Indicators:

In order to enhance analysis, comparative information is provided for Assets, Liabilities, Net Position, Revenues and Expenses as shown in the chart below. The benchmarks shown in the chart resulted from a pooling and captives' industry study conducted a few years ago by Tillinghast and provides a useful tool to facilitate management's analysis and understanding of the financial results. Other performance indicators may be used by insurance companies but are not necessarily useful comparative indicators for risk pools.

Economic Factors:

For fiscal year ending June 30, 2014, economic conditions showed signs of improvement with some growth continuing for the nation and Nevada. NPAIP's investments, although showing improved results this year, have performed consistently with fixed income investment markets in light of the statutory requirements to invest in governmental securities.

Medical inflation continues to be higher than the overall consumer price index nationally, which affects the underlying costs of liability claims payable by NPAIP. Based upon claims activity and the tendency of plaintiffs to appeal judgments more often, litigation costs continue to rise. The NPAIP's defense costs have risen as a result of the types of cases being filed and the increase in the hourly rate that assures retention of competent counsel to handle civil rights cases in particular. Fiscal year ending June 30, 2014 evidenced stable insurance market conditions for property and liability reinsurance. Rates in property coverage were stable as were liability rates. NPAIP continued its membership in the following reinsurers in which it has a financial interest:

- Public Risk Mutual, its own captive, that provides reinsurance for property and liability coverage
- * County Reinsurance, Ltd., a captive mutual reinsurer for all members other than schools for liability coverage
- United Educators, a captive risk retention group for schools liability coverage reinsurance
- Government Entities Mutual (GEM), a captive mutual reinsurer, that provides a layer of liability reinsurance

Subsequent Events:

There were no subsequent events that would affect the financial statements for the current fiscal year.

Requests for Information:

While the purpose of this discussion and financial report is to provide a general overview of the NPAIP's financial position, requests for additional financial information should be addressed to Wayne Carlson, Executive Director, 201 S. Roop, Suite 102, Carson City, NV 89701-4790.

Notes to Financial Statements June 30, 2014 and 2013

NOTE 1 - NATURE OF ORGANIZATION

The Nevada Public Agency Insurance Pool (NPAIP) is a quasi-governmental entity formed by an intergovernmental agreement between political subdivisions of the state of Nevada and organized to operate as a group self-insurer. The purpose of the organization is to seek the prevention or lessening of casualty losses to its members and injuries to persons, which might result in claims being made against such members. In addition to self-funding and excess insurance protection, the program provides risk management services with emphasis on loss control, claims administration, and management support services. The NPAIP is fully funded by member participants. Members file claims with Alternative Service Concepts, LLC (ASC), which has been contracted to perform claims adjustments for the NPAIP.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Presentation

The Nevada Public Agency Insurance Pool has prepared its financial statements in accordance with accounting principles generally accepted in the United States of America. NPAIP has implemented Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis – for State and Local Governments*.

The financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America for governmental entities and insurance enterprises, where applicable, which may differ from the basis of accounting followed in statutory reporting.

Accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Measurement Focus, Basis of Accounting

The financial statements are reported using the economic resources management focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Expenditures are recorded when the related fund liability is incurred.

Cash Equivalents:

For purposes of the statement of cash flows, the NPAIP considers investments with original maturity dates less than 90 days to be cash equivalents.

Investment and Interest Income:

Investments are recorded at fair market value. Interest income, realized and unrealized gains and losses are shown as net investment income.

The NPAIP is authorized, by state statutes, to make investments in bonds and debentures of the United States, bills and notes of the U.S. Treasury the maturities of which cannot be more than 10 years from date of purchase. The NPAIP is also authorized to purchase negotiable certificates of deposit issued by commercial banks or insured savings and loan associations, the U.S. Postal Service and Government National Mortgage Association securities.

Credit Risk:

Credit risk is the risk that the issuer of a security will default on principal and interest of the security. NPAIP's policy is to invest in corporate debt issues with a minimum of an "AA" rating from Moody's or Standard and Poor's rating services or U.S. Government and government backed securities. In addition, NPAIP's policy is to diversify the investment portfolio so that the impact of potential losses from any one type of security or from any one issuer will be minimized.

Budget

A budget is prepared by management though there is no legal budgetary requirement.

Notes to Financial Statements June 30, 2014 and 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Credit Risk:

NPAIP limits investments in fixed income securities to 10% of the total fixed income portfolio to any one issuer. No more than 15% of the total investment pool will be invested in any one class of security, industry or company. NPAIP will not directly invest in securities maturing more than ten (10) years from the date of purchase, except as permitted by law. The policy does not place a limit on the purchase of U.S. Government and government backed securities.

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. NPAIP will, to the extent possible, minimize this risk by matching investment maturities to liability due dates. This allows NPAIP to hold investments to maturity thus mitigating losses from the sale of investments prior to their maturity date. Additionally, exposure to fair value losses arising from decreasing interest rates is minimized by investing predominantly in investments with short to mid-term maturities that perform in line with the return of a managed fund comprised of 1-3 year Treasury Bonds.

Deductible and Specific Excess Recoverable Receivables:

Deductibles receivable represents the portion of a claim to be collected from members. Specific excess recoverables represents amounts to be collected from excess insurers on claims made by members against the NPAIP in excess of the NPAIP's retention.

Fixed Assets:

Equipment on the books is depreciated over the estimated useful lives of the assets using the straight-line method and the lives assigned to assets range from 5 years to 10 years. The office building cost is depreciated using the straight-line method over a period of 40 years with no salvage value.

Legal Fees:

Legal fees included in administration expenses are primarily for corporate legal work only; all legal expenses associated with a particular claim are charged directly to that claim's experience. Legal work on claims affects losses incurred and loss adjustment expenses.

Losses and Loss Adjustment Expenses:

Reserves for losses and allocated loss adjustment expenses are provided based on case basis estimates for losses reported and NPAIP's historical loss experience for claims incurred but not reported (IBNR). The liability for unpaid losses and loss adjustment expenses includes the estimated cost of investigating and settling all claims incurred as of the balance sheet date. Such amounts are determined on the basis of an evaluation of the NPAIP's independent consulting actuary. The liability for unpaid losses and loss adjustment expenses has not been discounted for the time value of money. Although such estimates are NPAIP's best estimates of the expected values, the actual results may vary from these values.

Member Loss Fund Contributions and Unearned Member Loss Fund Contributions:

Member contributions are collected in advance and recognized as revenue in the period for which insurance protection is provided. Contributions are allocated by PARMS with actuarial input.

Federal Income Taxes

In accordance with Internal Revenue Service code Section 115, organizations formed, operated and funded by political subdivisions may exclude income from those activities that qualify for exclusion. Accordingly, no provision for income taxes has been provided in the accompanying financial statements.

Supplementary Development Schedule - Unaudited

The statements and development schedule reports claims paid on a reported year basis. Loss reserves shown on the financial statements are discounted; however, the development schedule reflects undiscounted loss reserves.

Prior Year Reclassifications

The prior year's financial statements have been reclassified where applicable to conform to the current year's presentation.

NOTE 3 – CASH AND INVESTMENTS

The carrying amount of NPAIP's deposits with financial institutions at June 30, 2014 and 2013 was \$2,000,714 and \$2,163,709.

The financial institution balance at June 30, 2014 and 2013 was \$2,344,007 and \$2,372,322 respectively. The difference between the carrying amount and bank balance results from outstanding checks and/or deposits not yet reflected in the bank's records.

| | <u>2014</u> | <u>2013</u> |
|--|---------------------|-------------------|
| Amounts insured by FDIC | \$250,000 | \$250,000 |

| Total deposits at financial institutions | \$ <u>2,344,007</u> | \$2,372,322 |

NPAIP maintains its cash, cash equivalents and investments in a commercial bank and a brokerage institution. All amounts in the commercial bank are insured by the FDIC or collateralized. Amounts at the brokerage firm are insured through SIPC and additional amounts above SIPC coverage limits are insured by the broker through an insurance policy.

A summary of investments as of June 30, 2014 is as follows:

Actual maturities may differ from contractual maturities as some borrowers have the right to call or prepay with or without call or prepayment penalties. Investments are reported at fair value by the investment broker as determined by an outside pricing firm.

NOTE 4 - LAND, BUILDING AND EQUIPMENT

Building and land are reported at cost less accumulated depreciation. Depreciation is calculated on the straight line basis over the estimated useful lives of the assets. NPAIP capitalizes equipment and building related expenditures that are greater than \$5,000. When assets are disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in operations. Activity for the year ended June 30, 2014 and 2013 was as follows:

NOTE 5 – RETENTION

Nevada Public Agency Insurance Pool retains a portion of claims prior to the application of coverage provided by its excess or reinsurance contracts. The coverage limits provided by the NPAIP within its retention amounts are as follows:

| NPAIP Limits: | <u>2013-2014</u> | <u>2012-2013</u> |
|------------------------------|------------------|------------------|
| Property blanket limit (1) | \$200,000 | \$200,000 |
| Liability per event | \$500,000 | \$500,000 |
| Monies & securities per loss | \$500,000 | \$500,000 |
| Equipment breakdown | \$ 50,000 | \$ 50,000 |

⁽¹⁾ Plus a \$250,000 corridor deductible for both years.

Should the cumulative losses paid within the NPAIP's retention in any one year exceed the NPAIP's loss fund contributions for that year, the balance would be payable from the NPAIP's equity.

NOTE 6 – UNPAID CLAIMS LIABILITIES

NPAIP estimates losses and loss adjustment expense based on historical experience and payment and reporting patterns. These estimates are based on data available at the time of the estimate and are reviewed by NPAIP's independent consulting actuary.

Inherent in the estimates of the ultimate liability for unpaid claims are expected trends in claim severity, claim frequency, and other factors that may vary as claims are settled. The amount and uncertainty in the estimates are affected by such factors as the knowledge of the actual facts and circumstances and amount of historical claims experienced relative to the development period that has been affected by the change in premium levels and increase in closing and settlement of claims.

As discussed in Note A, the NPAIP establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claims adjustment expenses, both allocated and unallocated. The following represents changes in those aggregate liabilities for the NPAIP in the last two years:

| | <u>2014</u> | <u>2013</u> |
|--|---------------|---------------|
| Unpaid losses and loss adjustment expenses at beginning of year or period | \$ 11,639,000 | \$ 11,473,000 |
| Incurred losses and loss adjustment expenses: | | |
| Provision for insured events of current year | 4,851,000 | 5,370,000 |
| Increase (decrease) in provision for insured events | | |
| of prior fiscal years | (2,098,292) | (2,375,998) |

| Claims and claim adjustment expenses attributable to insured events of current | | |
| fiscal year/period | (788,000) | (652,000) |
| Claims and claims adjustment expenses | | |
| attributable to insured events of prior | (3,450,708) | (2,176,002) |
| Total Payments | (4,238,708) | (2,828,002) |
| Unpaid claims and claims adjustment expenses | | |
| At end of fiscal year | \$ 10,153,000 | \$ 11,639,000 |

In 2014 the current portion of the reserve, cash expected to be paid within 12 months, is \$4,336,045 and the long-term portion is \$5,816,955. At the end of 2013 the current portion was \$4,811,009 and the long term portion was \$6,827,991.

At June 30, 2014 and 2013, NPAIP recorded the liability for losses and loss adjustment expenses based on an estimate of its independent consulting actuary. The reserve balances were developed by an independent actuary and is management's best estimate of reserves at June 30, 2014 and 2013.

NOTE 7 - RELATED PARTY TRANSACTIONS

Public Agency Risk Management Services, Inc. (PARMS) is presently contracting with the NPAIP and PACT to provide management services. PARMS serves both the NPAIP and the PACT as the Executive Director/Administrator. PARMS is a service corporation wholly owned by Mr. Wayne Carlson. Contract fees paid for year ended June 30, 2014 and 2013 was \$490,140 and \$475,000.

PARMS is under obligation to lease office space at 201 S. Roop St. in Carson City, Nevada from the Nevada Public Agency Insurance Pool throughout the term of the management contract. Payments made in 2014 and 2013 were \$65,772 and \$65,772. The contract includes a 2% per annum increase in the lease expenses beginning on July 1, 2014.

PARMS provides accounting services to the Nevada Association of Counties and Wayne Carlson is authorized as the second signer on checks disbursed from that organization's accounts.

Effective July 1, 2006, Nevada Public Agency Insurance Pool (NPAIP) jointly with PACT provided a grant with Pooling Resources, Inc. (PRI), a nonprofit organization formed by the executive director of NPAIP, Wayne Carlson, and whose directors are Wayne Carlson, Alan Kalt and Michael Rebaleati. The cost of this grant was \$535,500 and \$525,000 for June 30, 2014 and 2013 respectively. The grant was renewed for three years beginning July 1, 2013 with future costs being \$546,500 for year ended 2015 respectively. PRI provides human resources management services to PACT members. PRI pays PARMS a management fee to provide operational and financial oversight of PRI. POOL is the sole policy holder of Public Risk Mutual Company which was formed as a captive insurance company.

NOTE 8 - CONTRIBUTED SURPLUS TO PUBLIC RISK MUTUAL

In May 2004, NPAIP's board of directors authorized the start up of a member-owned nonprofit captive mutual insurance company and contributed to the surplus of the company with an initial \$1,000,000 surplus contribution. The company, Public Risk Mutual, is domiciled in Nevada and as of September 1, 2004, became the excess property insurer for NPAIP. Subsequent contributions to surplus were made by NPAIP. The cumulative contributions were \$17,988,540 and \$16,488,540 as of years ended June 30, 2014 and 2013. Some of the Public Risk Mutual's board members also serve as board members of NPAIP.

Public Risk Mutual was formed by members of NPAIP to reduce the costs of insurance, to obtain direct access to reinsurance, to provide broader coverage for policyholders, to broaden investment opportunities and to build equity to enable providing coverage not obtainable elsewhere.

As a condition of providing surplus contributions, but without any expectation that the funds will be returned, NPAIP will recoup the contributions to surplus. Therefore, management considers the surplus contributions a development cost asset that can provide lower operating costs in the future and estimates that the savings in excess insurance costs to NPAIP will recoup the contributions to surplus. Therefore, the NPAIP's interest in PRM is being amortized over 10 years. Amortization expense was \$1,786,354 and \$1,628,228 for fiscal years ended 2014 and 2013.
