

Nevada School Safety Workshop

December 4th and 5th
Hyatt Place, Reno Airport

1790 East Plumb Lane, Reno, Nevada

Workshop Information

This workshop will address current events in school safety and emergency management specific to Nevada schools based on compliance to Nevada Revised Statutes and recommended best practices in school safety. The Department of Justice After Action Review Report on the Robb Elementary School killings released in March of 2024 detail multiple compliance and negligence issues that were contributory factors in deaths and injuries during that incident that need to be addressed in school safety across the U.S. moving forward. These include target hardening, emergency communications planning, emergency management planning, staff emergency response training, reunification, and pre-incident Behavioral and Digital Threat Assessment. All these areas of identified vulnerability will be addressed during the workshop presentations. All facilitators are Subject Matter Experts in their individual fields and will leave attendees with takeaways they can implement in their schools to enhance the safety of students and staff.

✔ Target audience

School Safety Specialists, School Administrators, School District Development Committee Members, School Board Trustees, School Counselors, Mental Health Professionals, School Resource Officers and Law Enforcement personnel involved with schools, any staff involved in safety or emergency response at a school.

✔ Registration

Registration for this workshop will open October 14, 2024. An email will be sent to School Safety Specialists and Superintendents when registration opens. [Click here](#) for registration and additional workshop information. POOL PACT is funding registration for staff from member school districts, so there will be no charge to individual attendees. If lodging is needed, rooms can be reserved at the Hyatt Place Reno Airport website.
